Evac Hospital Nurses at work "Vietnam"
Here is a trip that far to many took, From the pad. The Commanding Officer of the 91st Evac in 1970 (Colonel Keawyn Nehoa) Said the facility was “The most Active Hospital in Vietnam, with the greatest turn-over of patients
The 91st Evac wounded were carried or walked on their own through these doors into R&E triage.
The 91st EVAC was staffed with 113 medical officers and 223 enlisted personnel. Capable of treating all acute injuries, including brain surgery as well as heart and eye surgery, the hospital treated an average of 800 patients per month in 1970-71. Some patients were transferred on to the 249th General Hospital near Tachikawa (AFB) in Japan for additional treatment or eventual evacuation to hospitals in the USA.
Living quarters for Nurses of the 6th Convalescent Center at Cam Ranh Bay, October 1968 - May 1969.

First Nurse Killed In Combat Since Vietnam, Buried At Arlington

ARLINGTON, VA - AUGUST 9th 2007 Members of a U.S. Army honor guard carry the casket of U.S. Army Captain Maria Ines Ortiz during a funeral service at Arlington Cemetery August 9, 2007 in Arlington Virginia. Ortiz was killed during a mortar attack inside of the Green Zone in Baghdad, Iraq, and is the first Army nurse killed by hostile fire since the Vietnam War.
